S200
Bread Improver

S200 bread improver is a world class new generation multi-purpose bread improver. It contains a blend of functional enzymes in combination with emulsifier, malt and other yeast stimulating ingredients.

Depending on the product & condition of production its dosage can range in between 1%-2% of flour quantity.

Application

S200 being a multipurpose improver can be used in various bread applications like crusty, rolls, whole wheat, multigrain and soft breads. Special blend of xylanase and amylase guarantees consistent results for every bake.

Advantages

- High fermentation tolerance
- Good Volume of baked goods
- Improved crust color
- Freeze tolerance
- Works in all bakery conditions
- Delivers consistent results irrespective of flour quality

Packaging : 5 kg LDPE bag in 20 kg master carton
Shelf Life : 9 months from date of manufacture
Storage : Store in a cool & dry place.

DRIED SOURDOUGH

For authentic artisan breads . . .

Sourdoughs have been an integral part of traditional bread making in Europe. SwissBake's premium artisan range of traditional fermented and gently dried sourdoughs includes Wheat Sour & Roggi flavour.

They are completely natural dried sourdoughs without use of any additives or preservatives and are made using flour, water and proprietary sour dough cultures.

WHEAT SOUR CONCENTRATE

N4008

Wheat sour concentrate is a naturally fermented and dried wheat sourdough powder. You can use it in your breads to increase flavour & aroma and maintain freshness. It also imparts a nice golden crust to the bread.

To be used with a dosage of 3% to 15% of flour quantity.

ROGGI FLAVOUR CONCENTRATE

I1216

Roggi flavour concentrate is made from dried rye sour dough with added roasted malt. It can be used for a variety of artisan breads like farmer bread, country bread and rye based traditional European breads. It imparts a natural dark colour to the bread with aromatic rye sourdough taste and gives it a rustic crust. It also helps in keeping the bread fresh for longer time.

To be used with a dosage of 1% to 3% of flour quantity.

Packaging : 5 Kg LDPE Pack in 20 Kg master carton.
Shelf Life : 9 months from date of manufacture
Storage : Store the mix in a cool & dry place.
